Faruque – thanks, I had a productive trip (it was for work!). The output plots are being prepared with finalization by the end of the week.

Regards,

Pat Havens

Subject: RE: Example of Sympatico Laser particle Size Analyzer Reports

Hi Pat,

I hope you enjoyed your vacation and are finding it easy to settle back in to work. Recently Diego sent an email containing AGDISP inputs spectra text files and an example input file for AGDISP. Thanks for providing these files. Diego's email also suggests that DOW is preparing a document containing Sympatec Laser particle Size Analyzer output plots. Do you know when we can expect that document? As you know these outputs are critical to review the submitted WT data in the MRID 49384801. If you get a chance, please let me know the status of the upcoming report.

Regards
Faruque
